ISSUE NO. 32

DECEMBER 28, 2007

## FROM THE MANAGING DIRECTOR

2007 is almost in the books and a large number of improvements and preservation activities have been completed on our road system. We worked hard to obtain all of the State and Federal funds we could, and all of the Townships have again invested greatly in the road system of the county. Overall this year, over 82 miles of road were built, paved, or sealcoated, representing 4.5% of our system. We owe a big "Thank You" to all who made this happen. Now, if only we could get improved funding from the State to allow us to perform a reasonable level of basic maintenance services on our Local Road System.
